

Innovation at Work:

AI IN GOVERNMENT CONTRACT COMPLIANCE

Artificial Intelligence (AI) is transforming how federal agencies, contractors and subcontractors manage procurement, compliance, and performance. Through automation, predictive analytics, and natural-language processing, AI helps organizations analyze complex regulations, streamline contracting workflows, and make faster, data-driven decisions.

J.A. White's ecosystem of automation platforms, CPSR ProDocs, Pricing+, FARRegVision+ and ClauseSync, are purpose-built for federal contractors, agencies, and subcontractors. These solutions automate documents, clause flowdowns, and regulatory monitoring to ensure FAR/DFARS compliance while reducing manual workload all while driving Return on Investment (ROI).

TOP NEWS CPSR Approval Advantages

- An approved purchasing system is often required to compete for large or high-risk awards.
- Prevents financial penalties, reduces rework, and avoids delays caused by noncompliance.
- Reduces the risk of omissions that can lead to DCMA findings, strengthens audit readiness, and streamlines daily operations.

Consequences of a Failed CPSR

DCMA (Defense Contract Management Agency) may issue a system "disapproval" if deficiencies are significant or uncorrected.

- Withholding of Payments (Up to 5%)
- Increased Oversight and Administrative Burden
- Corrective Action Plans (CAPs)
- Reputational and Financial Risk
- Loss of Competitive Position

DC Government Contracts Week Tysons Corner, VA October 27-31, 2025

Join Jeffery White for an in-depth training experience designed for today's government contracting professionals. This dynamic speaker delivers expert instruction on key topics and the latest trends shaping the future of federal acquisition.

Scheduled Presentations

October 29th: AI in Government Contracting
October 30th: Managing Flowdowns
October 31st: Subcontract Compliance for Government Contractors

Don't miss out — giveaways happening all week at our booth!

Understanding U.S. Federal Government Contracting and Subcontracting Principles Brussels October 28-30, 2025

FedPubs & J.A. White
Discover our three-day training built for European and Asian organizations doing business with the U.S. Federal Government or Prime Contractors.
