JA White

Tariff IQ

Supply Chain and Sourcing Analysis

J.A. White helps organizations navigate tariffs and trade related compliance challenges by combining procurement expertise, supply chain advisory services, policy development, and automation tools that enhance visibility into sourcing, subcontracting, and regulatory obligations.

Primary ways J.A. White can assist with tariff knowledge and tariff-related risk management:

- Supply chain and sourcing analysis.
- Automation and audit readiness.
- Procurement policy and compliance updates.
- Training on trade and procurement impact.

HIGHLIGHTS

Procurement Policy

Ensure procurement systems remain aligned with federal and trade regulations.

- Tariff exposure and country-of-origin.
- Buy American Act compliance and Trade Agreements Act (TAA).

Risk Mitigation

Government contractors often face indirect tariff risks through subcontractors and imported components.
