Client Benefits of Tariff IQ

Developed by J.A. White, Tariff IQ is an advanced platform designed to help organizations navigate global procurement and trade risks with speed, accuracy, and confidence.

The centralized solution automates tariff management, denied party screening, and regulatory compliance, enabling companies to streamline operations, reduce risk, and maintain visibility across complex international supply chains.

BENEFIT 01

- Support for Buy American Act (BAA) and Trade Agreements Act (TAA) in sourcing decisions.
- Better cost forecasting and budgeting by understanding tariff-related cost impacts.

BENEFIT 02

- Reduced risk of noncompliance with import, export, and trade regulations.
- Stronger procurement and supply chain strategies aligned with evolving global trade requirements

BENEFIT 03

- Reduced administrative burden through automated monitoring and alerts.
- Improved visibility into tariff exposure across products, suppliers, and countries of origin.
