

ALIGNMENT WITH FEDERAL CYBERSECURITY

CPSR ProDocs supports cybersecurity efforts indirectly by helping government contractors standardize, automate, and document procurement compliance processes that are closely tied to federal cybersecurity requirements.

Discover More

While CPSR ProDocs IQ is primarily a procurement automation and CPSR compliance platform, its workflow controls an organization's overall compliance posture across multiple regulatory frameworks:

- NIST SP 800-171
- DFARS 252.204-7012
- Subcontract Cybersecurity Flowdowns
- Cybersecurity Maturity Model Certification (CMMC)
- Supply Chain Risk Management (SCRM) Requirements

CYBERSECURITY CLAUSE MANAGEMENT

Through ClauseSync, integrated within the CPSR ProDocs IQ platform, contractors can accurately identify and manage required FAR and DFARS important cybersecurity flowdown clauses.

- DFARS 252.204-7012
- 252.204-7019
- 252.204-7020
- Emerging CMMC Related Requirements
