➤ What Government Contractors Need to Know Before a CPSR

A Contractor Purchasing System Review (CPSR) goes beyond individual procurement files. DCMA evaluates whether a contractor's purchasing system operates consistently, maintains effective internal controls, and supports compliant, well-documented decisions. Recurring deficiencies can signal systemic weaknesses, making it critical to identify risk early, strengthen controls, and maintain continuous CPSR readiness.

➤ Is Your Purchasing System CPSR-Ready?

Recognized for excellence in Federal Contract Compliance, J.A. White & Associates, LLC equips organizations with solutions that ensure regulatory alignment and procurement success. With experience in the public and private sectors, we have established a ***flawless record earning 100% approval in Contractor Purchasing System Review (CPSR) and Business Systems.***
