► **The Challenge**

Defense and civilian government contractors face an ever-intensifying compliance burden under FAR Part 44 and DFARS 252.244-7001. A single Contractor Purchasing System Review (CPSR) deficiency can trigger payment withholds of 5–10% on all cost-reimbursable billings.

Yet most organizations still manage procurement documentation through disconnected Word templates, SharePoint folders, and ERP printouts that make audit preparation slow, inconsistent, and risky. The result is a compliance posture built on individual buyer discipline rather than systematic controls.

► **What It Delivers**

CPSR ProDocs IQ replaces ad hoc procurement documentation with a structured, intelligent compliance platform engineered around the 24 CPSR evaluation criteria. The platform combines interview-driven intake, dynamic threshold logic, and automated document generation to ensure every procurement action produces audit-ready documentation.

► **About J.A. White & Associates, LLC**

J.A. White & Associates, LLC is a government contracting advisory and technology firm specializing in purchasing system compliance, CPSR preparation, and procurement process modernization for defense and civilian prime contractors. CPSR ProDocs IQ is the firm's flagship SaaS compliance platform, currently deployed across multiple prime contractor organizations and actively maintained to reflect the latest FAR/DFARS threshold and regulatory updates.
